**Date:** 01/17/2012 03:07 PM

---

Lisa,

The below lat/long refer to the sampling locations (Storm Langhor; Storm Tamarack). The other sampling points refer to samples collected in Bozeman Creek above Storm Langhor pipe and below the Storm Tamarack pipe.

Erik Makus is finishing up the SWMM summary and part of this is the estimation of contributing area of the MS-4 to each receiving waterbody.

Christian

The first location is called "Langohr Avenue and Westridge Drive" – Latitude: 45 degrees, 39 minutes, 20.5 seconds, Longitude: -111 degrees, 2 minutes, 33 seconds.

The second location is called "N. Bozeman Avenue and Tamarack Street" – Latitude: 45 degrees, 41 minutes, 18.96 seconds, Longitude: -111 degrees, 2 minutes, 3.84 seconds.

Dustin,

Thanks for the call and the information. I appreciate it.

One more question. Do you have lat/long data for the sampling locations?

Christian
